OBJECTIVE

Seeking an IT practical internship/WIL for 2027 to apply my technical skills specifically in the Machine Learning and AI fields and contribute to real-world projects, and to develop both technical and behavioral competencies.

PROFILE

Final year Bachelor of Computing student specializing in Software Engineering with hands-on experience in backend development, server management, and programming in multiple languages including Java, C#, Python, and JavaScript. Experienced in working on team-based academic projects and building practical solutions.

EDUCATION

Bachelor of Computing| Belgium iTversity

2023-2027

I am currently studying towards a Bachelor of Computing (NQF8) degree, at Belgium. Intended year of academic completion (2026) and require 1 year internship completion (2027).

Matric | HTS John Vorster High School

2018 – 2022

I matriculated from HTS John Vorster High School in 2022.

EXPERIENCE

Student | Belgium iTversity

Belgium Campus iTversity | 2023 – Present

- Engaged in academic projects focused on Software development, Machine learning and AI
- Sign Language to Speech AI Translator
- Gained practical experience in coding, debugging, and system design
- Developed foundational knowledge of backend systems and programming

- Experience in server management.

SKILLS

- Good planning and organizing skills.
- Effective communication skills.
- Critical thinking skills.
- Strong work ethic and disciplined.
- Can work under pressure.
- Extremely patient.
- Able to work independently and within a team environment.
- Fast learner and creative problem solver.
- Adaptive to new environments
- Analytical skills, enjoy working on idea forming in my free time.

LANGUAGE SKILLS

I am fluent in both Afrikaans and English languages (read, write, speak).

COMPUTER SKILLS

- Highly competent – MS Visual Studio, Visual Studio Code, INTELIJ IDEA and AI Tool assist
- Proficient – Java, Java Script, C-Sharp, C++, Type Script, Python, SQL and PHP.
- Microsoft Office – Office Scripts, Word, Power Point, Excel and Access.
- Expert – PICAXE (schematic and flowchart designing for PCB's)
- Proficient – PCB (PC Board designing).
